

Understanding How Beef Lung Ships.

This is the standard shipping method of beef lung from other manufacture as well.

Bulk Beef Lung – Double bagged, then double bagged in brown paper bags. There is no ice pack or insulation. These are used for bait not human consumption. They are frozen when they ship however, they may not when they get to you.

Pre-Rigged Beef Lung – Sealed in a bag. Then double bagged in brown paper bags. These are pegged wrapped then sealed in a bag, then frozen. Same as the bulk no ice packs, or insulation. They are frozen when they ship however, they may not when they get to you.

Shipping – Most beef lung is shipped USPS. It takes anywhere between 1-3 days for it to be delivered. However, I do have the option to ship UPS. The usually delivery time for UPS is 1 day. So, if you would like UPS shipping please contact me at 321-292-2888
